### Curriculum Structure and Schedule

The training course will be divided into 12 modules, distributed across asynchronous sessions.

| Module                                                     | Syllabus / Course Content                                                                                  | Practical Activity                                           |
|------------------------------------------------------------|------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------|
| <b>1 - Introduction to Karmic Astrology and DNA Memory</b> | Fundamental concepts of past lives, ancestry, and cellular memory.                                         | Reflection activity on patterns perceived in one's own life. |
| <b>2 - Fundamentals of Astrology for Karmic Study</b>      | The relationship of birth chart elements through the lens of cause and effect: signs, houses, and planets. | Activity with module questions.                              |
| <b>3 - Ancestral Lines and Houses of Karma</b>             | Houses 4, 8, and 12 as portals to past and family memories.                                                | Activity with module questions including house analysis.     |
| <b>4 - Lunar Nodes – The Soul's Path</b>                   | North Node and South Node as guides for life mission and karmic memories.                                  | Activity with questions including node analysis.             |
| <b>5 - Key Planets</b>                                     | Pluto, Saturn, and Chiron as keys to pain, healing, and transformation.                                    | Activity with True/False questions.                          |
| <b>6 - Genetic Patterns and Cellular Memory</b>            | How family and genetic inheritances manifest in the birth chart. Concept of epigenetics.                   | Activity with questions analyzing family inheritances.       |
| <b>7 - Shadow Astrology</b>                                | Identification of unconscious blockages, past life repetitions, and destructive patterns.                  | Activity with questions analyzing blockages.                 |
| <b>8 - Composite Charts and Karmic Relationships</b>       | How to identify relationships from past lives through synastry and composite charts.                       | Activity featuring a case study with True/False questions.   |

| Module                                                | Syllabus / Course Content                                                                                              | Practical Activity                                                   |
|-------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------|
| <b>9 - Cycles and Karmic Release</b>                  | Predictive techniques to understand when karmic patterns are activated or dissolved.                                   | Activity with True/False questions based on cycles.                  |
| <b>10 - Deep Integrative Interpretation</b>           | How to unite all elements: nodes, houses, planets, family patterns, and memories.                                      | Activity with True/False questions on unifying the subject matter.   |
| <b>11 - Planets Indicating Akashic Records</b>        | The relationship with retrograde planets. Biquintile and quincunx aspects.                                             | Activity with True/False questions.                                  |
| <b>12 - Therapeutic Tools and Professional Ethics</b> | Boundaries of the astrologer. How to conduct sensitive consultations. Complementary techniques for releasing patterns. | Final course activity with True/False and multiple-choice questions. |
